FASHION ON shesaid

Jewellery Fashion for the Fields

For the Spring Racing fashion enthusiast, there is more to fashion on the field than shoes, hair, clothes and make-up, but sometimes it's so small it's neglected until it's almost too late.

Melbourne online fashion jeweller, Ella Bleau Jewellery said they always see an increase in orders around October but become inundated with orders the week before Melbourne Cup.

Ella Bleau - Classic Band \$60, Tennis Bracelet \$99, Wishbone Necklace \$45.

Creative Director, Joana Calado said that it was lucky they were quick to respond and stocked the latest designs.

"Fashionistas are so focused on the overall outfit, they sometimes forget the little pieces, but when you see the winner of fashion on the field or even a striking outfit, you'll notice the jewellery absolutely compliments the outfit, it's sublime style.

"Wearing no jewellery is a faux par, but over-accessorising is just as bad," she said.

Ms Calado says the trick to perfecting jewellery is just as simple as betting.

"Ears, arms, neck. It's all about the trifecta. Jewellery needs to match your outfit and your personality, without detracting from it."

Ms Calado said antique and classic style pieces are the trend for this Spring season.

Ella Bleau - Pearl and Diamond - Earrings \$45, Ring \$55, Pendant \$50.

"Celebrities and movie stars are dressing with total sophistication and Spring Racing Carnival is the epitome of style and sophistication. Not all of us have the budget of movie stars, but we can certainly achieve the same look.

"Our pieces are timeless, stylish and affordable. That's what women are looking for this season.

"Being available online, our jewellery is less expensive than store purchases- giving fashionistas the ultimate excuse for shopping. It also means fashion conscious punters can have more money for "that" dress, "those" shoes or even have a bit of extra cash for a bet," said Ms Calado.

Ella Bleau jewellery uses the finest quality sterling silver, 18K gold and/or 14K gold settings, cultured and fresh water pearls and unique diamond simulants.
